

LUMBER BARON BAR

At the Lumber Baron, we have chosen a blind selection of wines by the glass. We hope that through this list, you will find wines you already know and love, and new wines that you've never tried! By presenting them blind, we hope to simplify wine for those who want it simplified, and to challenge those who want to learn. It's not a secret though, so feel free to ask what our selections are today. If you are looking for something specific, ask! We always have a few stray bottles behind the bar and each one is available by the glass. Cheers!

LUMBER BARON BAR

Acid Trip | 13

White wine with some zip. It's like drinking electricity.

Do a Barrel Roll | 17

Oaked white wine. It's probably Chardonnay, but it might not be.

Sweet Wine | 12

White wine, touch of sweetness. Not the song by Cream.

Easy Street | 13

White wine that goes down easy. This isn't a patio, but you can pretend.

Rosé all day | 14

Rotating pink option. It's a year round thing now.

Dé Classé | 24

High end red offering from a classic region. Classy.

This is my Jam | 12

Rich, dark fruit driven red from a warm climate. Loves you as much as you love it.

Do you Like the Taste of Dirt? | 16

Earthy red with rustic tannin. It smells like a barnyard, but like, in a good way.

Roses are Red... | 16

Light or Medium bodied red, driven by red fruits and complexity. Like drinking cherry cola in a flower garden, but the cherry cola is wine.
